### **Grand Total Summary**

Grand Total (All Provinces): **465,800,000 VUV**

### **Overall Progress Summary**

The Ministry of Health's 2025 capital program totals approximately **465,800,000 VUV** across all six provinces. Shefa Province accounts for the largest share, driven by major recovery works and urban infrastructure projects following earthquake damage. Penama and Malampa provinces continue to focus on staff housing and facility renovations. Torba and Sanma provinces maintain smaller but critical upgrades, while Tafea focuses on strengthening maternity and rural facilities. Overall, 2025 investments highlight the government's commitment to improving health infrastructure, resilience, and equitable access across Vanuatu.
